Our day begins at the C&O Canal Museum & Visitor Center in Cumberland, located at the train station. This interactive museum highlights the history of the Chesapeake & Ohio Canal, featuring exhibits on canal construction, cargo, mules, locks, and crew, along with a model of the Paw Paw Tunnel and a life-size section of a canal boat.

Next, enjoy a scenic ride aboard the Frostburg Flyer, a classic diesel-powered train traveling deep into the Allegheny Mountains. The route winds through the Narrows Valley, around the famous Helmstetter's Curve, and through the 916-foot Brush Tunnel, offering beautiful mountain views along the way.

Once we arrive in Frostburg, our motorcoach will meet us and take us to lunch. Afterward, the adventure continues with a guided rail bike experience—yes, custom bikes designed to ride directly on the railroad tracks!

The rail bike ride is mostly downhill, gentle, and suitable for all ability levels, making it especially enjoyable for seniors. We'll depart as a group from the historic Frostburg Depot and enjoy a scenic 10-mile pedal-and-coast ride east along the railroad. The route offers sweeping mountain views and includes highlights such as the Brush Tunnel and Helmstetter's Curve before ending at Cash Valley Crossing. Our motorcoach will be waiting at the finish to return us to the Community Center.
